

EUROLUCE 2023: 16 LIGHTING DESIGNS SHINING IN MILAN

A giant cloud chandelier, a signature-like lamp, a Wassily Kandinsky-inspired fashionable hat turned into a light, a glowing grid pulsing with music, and more. Sixteen out-of-the-box lighting designs at Euroluce 2023.

Design – Archipanic founder and editor-in-chief Enrico Zilli explored **Euroluce 2023**, **Salone del Mobile**'s exhibition dedicated to **lighting design**, and selected 16 innovative lamps and chandeliers debuting in Milan.

Vis à Vis by Michele Groppi for Davide Groppi

Photo by Davide Groppi.

Davide Groppi presents **Vis à vis**, a rechargeable and transparent table lamp designed by Michele Groppi. *“Ten years after the presentation of our first battery-operated lamp, we wanted to add a new idea of wireless light, remaining unique and innovative. Once again, we decided to take away, seeking only the light.”* Explains Michele Groppi. *Vis à Vis* fascinates with its poetic and magnetic transparencies. Ideal for both indoor and outdoor spaces.
